Art Unit: 1733

## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Pickell on 4/30/07.

The application has been amended as follows: In the claims, claims 14 and 16 have been cancelled.

In the title, "composite shoddy and " has been deleted and "same" has been replaced by –a composite shoddy--.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a method of manufacturing a composite shoddy wherein a preformed primarily bituminous material having two engaging sides is bonded on one side with a shoddy material and on the other side with a scrim such that the scrim is an exterior surface. While Kirschbraun(U.S. Patent 1,528,436) discloses a felted base impregnated with bitumen and bonded to a fabric, the bitumen is not a preformed layer which is bonded to the felted material. Additionally, the fabric is not a scrim, i.e. an open mesh fabric, but rather is a closed mesh fabric such as burlap or canvas. While Pullar(U.S. Patent 1,248,909) discloses bonding a preformed bitumen

9

layer to scrim, the scrim is not both sides of the bitumen, and there is no reason to replace one of the scrims with shoddy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara J. Musser whose telephone number is (571) 272-1222. The examiner can normally be reached on Monday-Thursday; alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571)-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
